AIRLINE

The AIRLINE throw-line offers an excellent compromise between flexibility and rigidity, for an accurate throw without the formation of knots as it comes out of the bag. The excellent sheath-core bond maintains a round cross-section, ensuring good rope glide through the tree. It is available in two versions: 60 and 300 meters.

Short Description Throw-line

Selling Points

- Combines flexibility for a precise throw and stiffness for avoiding knot formation as it comes out of the bag
- Excellent sheath-core bond maintains a round cross section, ensuring good rope glide through the tree. The sheath is made of Dyneema® for excellent abrasion resistance
- Lightweight, does not require a very heavy throw bag
- Yellow for excellent visibility
- Available in two versions: 60 and 300 meters

Specification

- Color(s): yellow
 - Weight per meter: 2,1g
-
