

AB30RT 30m Fall Arrest Winch

The 30m Fall Arrest Winch is designed to provide fall protection from falls from height.

Anchored above the user, it gives the user a safe area of work. The retracting line pays in and out of the device as the user moves. In the event of a fall, a brake engages, arresting the fall of the user with a controlled deceleration force.

The AB30RT has an integral winch mechanism, so in the event of a fall, the top man will be able to raise or lower the user to a safe area.

Swivel anchor eye on top.

Can be mounted onto Abtech Tripods and Davit arms for access and egress from a confined space.

Product Code:	AB30RT
Conformance:	BS EN 360
	BS EN 1496 Type B
Cable:	30m x 4.8mm
	Galvanised Steel
Max Recommended User Weight:	140KG
Weight:	23kg
Service Interval:	12 months
