

ABRL06W 6m Webbing Fall Arrest Device

The 6m Fall Arrest Device is designed to provide fall protection from falls from height.

Anchored above the user, it gives the user a safe area of work. The retracting line pays in and out of the device as the user moves. In the event of a fall, a brake engages, arresting the fall of the user with a controlled deceleration force.

Fitted with a Twistlock karabiner on top and snap indicator on webbing.
