

ABRL03W 3m Webbing Fall Arrest Device

The 3m Fall Arrest Device is designed to provide fall protection from falls from height. Anchored above the user, it gives the user a safe area of work.

The retracting line pays in and out of the device as the user moves.

In the event of a fall, a brake engages, arresting the fall of the user with a controlled deceleration force.

Fitted with a Twistlock karabiner on top and snap indicator on webbing.
