Harness 1137

- Harness for the wind industry
- Ergonomic
- Optimal fit

EN 358 : 2018

EN 361 : 2002

Product description

The Fusion Active + Wind harness is specifically crafted to support wind power technicians, offering an ergonomic design that distributes weight evenly across the body. This ensures comfort and efficiency in various challenging environments. It features the most vertical body angle when hanging from the front connection point, making it ideal for helicopter lifts and tasks requiring precise vertical positioning. Available in sizes S/M and L/XL, it offers easy adjustability for the perfect fit. With coated D-rings and a self-luminous rear anchorage point, it is also suitable for low-light conditions. Made with high-quality polyester bands and top-grade steel components, this harness guarantees durability and reliability.
